Eva Bevec (b. 1998) is a designer, visual artist, and photographer based in Ljubljana, Slovenia. She completed her undergraduate studies in visual communications (with a focus on graphic design) with honors at the *Academy of Fine Arts and Design in Ljubljana* in 2020. She continued her design studies abroad, at the Master Department of Information Design at the *Design Academy Eindhoven* in the Netherlands, where she graduated with honors in 2023.

She has participated in many group and solo exhibitions in Slovenia as well as internationally, showcasing her works at *Dutch Design Week* in Eindhoven and at the *Museum of Contemporary Art Metelkova* (MSUM) in Ljubljana, among others. She has received various awards for her work, such as the student *Prešeren Award* of the University of Ljubljana and the *Brumen* recognition for excellent Slovenian design. She is a member of the *Futures* photography platform. She is currently self-employed in culture (*samozaposlena v kulturi*) and works as a graphic designer with *Grupa Ee* in Ljubljana.

In her artistic and design practices, Eva employs the methods of essay film, documentary photography and visual journalism to explore the ordinary and the banal aspects of her surroundings and the systems that define them. Through curious and critical investigation and documentation of the seemingly mundane, she reveals deeper and broader social, political, as well as aesthetic questions, patterns, and implications.
